2021 CABERNET SAUVIGNON

Leonardini Vineyard
St. Helena, Napa Valley

The Davies family, proprietors of Schramsberg Vineyards and Davies Vineyards in Napa Valley, presents its second bottling of the St. Helena Cabernet Sauvignon from the St. Helena District. Building upon its experience with its home property on Diamond Mountain in the valley's western Mayacamas Range, this bottling represents the Davies team's effort with Cabernet Sauvignon from this famed appellation. Second-generation Vintner Hugh Davies, VP of Winemaking Sean Thompson and Consultant Celia Welch have collaborated well together since 2008 in crafting Napa Valley Cabernet Sauvignons, and they are very proud to present this unique vineyard-designate bottling from the 2021 vintage.

Approximately 20 miles north of the San Francisco and San Pablo Bays, and nestled between the Mayacamas and Vaca Mountain ranges, lies appellation St. Helena. The hourglass shape of this appellation's geography, and its distance from the cool waters of the Bay and the Pacific Ocean, set this historic location apart from any other growing region. Vineyards are located on ancient alluvial fans, that sweep toward the Napa River. Consistent heat is locked in during the day and is amplified by the hillsides; at night, that same slender width funnels moderating breezes to dramatically cool the vines, sometimes by as much as 40 to 50 degrees. This extreme shift in temperature helps the fruit retain ideal balance and acidity.

The Leonardini Vineyard was first planted to grapes in the late 1800's when the Lewelling Family settled on a large tract of land on the southern outskirts of St. Helena. The old-time farmers of the area said that the soil, Cortina Gravelly Loam, in this particular area was renowned for "black" wine grapes. However, the quality of the harvests varied greatly depending on seasonal rainfall due to the fast draining soils. This wine is crafted from two distinct blocks of Cabernet Sauvignon, creating depth of color and flavor.

The 2021 growing season began with minimal rain, resulting in modest bud break in the spring with heat spikes from June through the beginning of September, ensuring small-sized and intensely-flavored berries. Harvest began at the end of September, with a more natural load on vines and grapes packed with flavor, resulting in another remarkable vintage.
